

THE DIAMOND APPROACH®

PRESENCE, PERCEPTION, PENCIL AND PAPER

Exploring the simplicity of being

This workshop is about presence: finding it, playing with it, being it. Touching into our inherent capacity for perception, both inwardly and outwardly, we will practice being present while using pencil and paper. This workshop is not about learning to draw, but about using the practice of making marks on paper to connect with ourselves and our surroundings, and to touch into the immediacy and freshness of our experience.

No prior drawing skills or experience needed.
