

THE ART OF INQUIRY

A Diamond Approach® workshop in Copenhagen
Open to the public and DA students

*"I wish I could show you,
When you are lonely or in darkness,
the Astonishing Light of your own Being"
Hafiz.*

In this weekend in Copenhagen we will explore the Art of inquiry.

Inquiry not only leads to greater awareness and understanding of our selves but it also invites our True Nature to reveal its hidden mysteries.

The Diamond Approach is a path of wisdom through direct experience. It recognizes the uniqueness of each individual and adapts itself to each person's needs at the time. It does not require that people adapt to some ideal, but welcomes people as they are and helps them to take the natural next step for their unique development.

The main method of the Diamond Approach is open-ended inquiry. Inquiry is not intellectual or philosophical; it's about intimately sensing yourself and noticing your experience right here and now. The more you are honest with yourself the more your awareness opens up and the more you will notice your Being or True Nature. Inquiries will be done in dyads, triads or in small groups.
