

DIAMOND APPROACH ISTANBUL WEEKEND RETREAT

"The heart falling in love with the truth is one of the most important realizations that can happen in a human being."
A.H. Almaas

LOVE OF TRUTH

Join us for this Diamond Approach retreat in Istanbul, where we will explore the transformative power of Diamond Inquiry. Understanding more about who and what we are, about our true potential, is a desire that lives in all of us. The practice of inquiry can bring us closer to this potential. Allowing the truth of our experience, no matter what it is, will open up our consciousness and our heart. We start to appreciate the truth for that gift; we start to love the truth. During this weekend we will explore how love for the truth can fuel our journey towards our true potential as human beings. We will also look into the obstacles that prevent us from opening up to the truth of our experience.

Open to the public and existing Diamond Approach students.
