

# THE DIAMOND APPROACH®

## Boston Group 4

*Diamond Approach Boston 4 is currently open to new participants and will close after April, 2021.*

*Trust in the universe, showing up as relaxation in our soul and body, is one of the perfections of one's actual nature, and strikingly felt throughout body and mind. We begin our human journey in this condition, but it is quickly lost as we develop the familiar self, its complexities and struggles.*

*In this weekend we explore particulars of how each of our unique characters was supported and became who and what we take ourselves to be. Recognizing the origins of that character, embracing it and understanding it, can open us up to possibilities beyond our 'personal usual' into greater freshness and possibility.*
