

# Social Action and Spirituality

## A Diamond Approach<sup>®</sup> Webinar

Saturday,  
July 8, 2017  
10:00am -  
12:30pm EDT

In this free webinar we will explore how spiritual practice and realization can contribute deeply to shaping our actions and the way we live our life. Although the Diamond Approach is purely a spiritual path and teaching, and does not take a particular position in the social, economic and political areas of life, we can explore how orienting towards discovering the truth and exploring our own attachments, fears and biases can help us direct our actions in all areas of life in a way that is most helpful and beneficial.

*This webinar will be led by Andreas Mouskos, Diamond Approach teacher who teaches in Boston, Colorado and Australia.*

*This webinar is an introduction to the teachings of the Diamond Approach and is open to the general public. It is presented as part of the offerings of Boston 4 Diamond Approach, a growing group that is open to new students. For more information about Boston 4, email Elizabeth Slayton at [easlayton@comcast.net](mailto:easlayton@comcast.net).*
